

1. Original shoreline used for distance

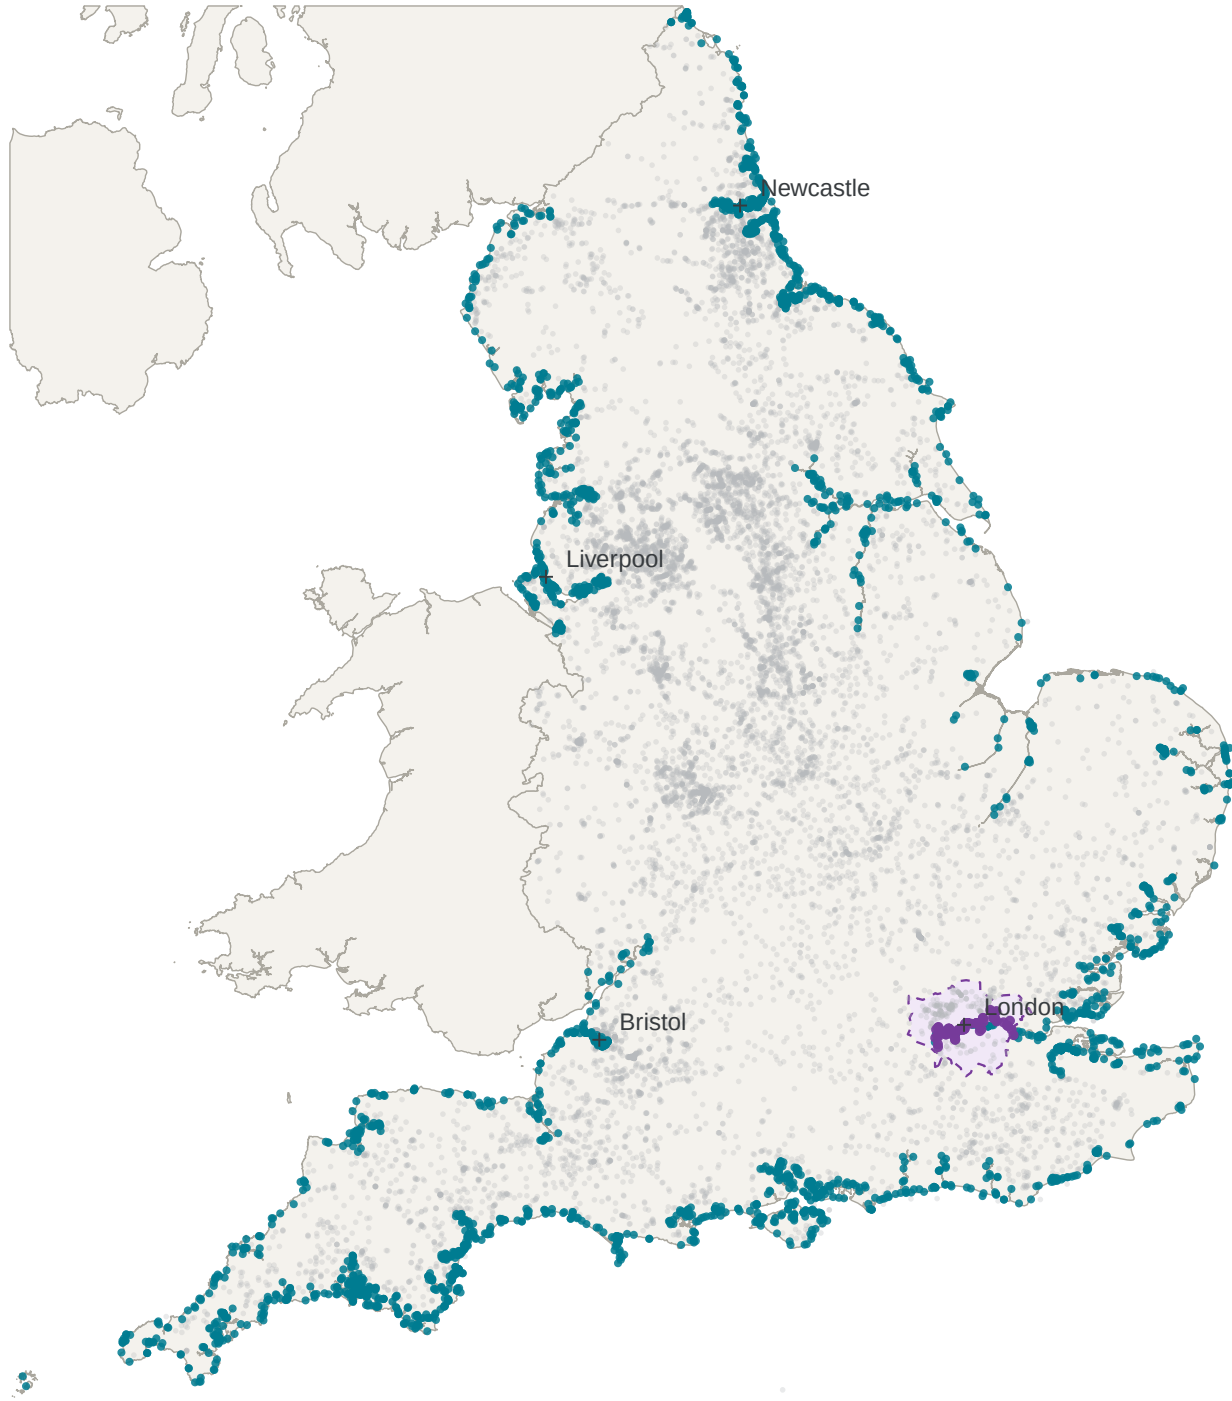

England and Wales | includes estuarine and tidal-river banks

— Included: original tidal coastline

2. Original Coastal site classification

Unchanged saved tidal-coast distance, inclusive 2 km threshold

- Coastal outside Greater London (2,917)
- Coastal inside Greater London (83)
- Inland, above 2 km (10,968)

Dots are Site Groups, not fitted observations. 21 sites lack coordinates; 1 located site lies outside England/Wales and is not shown.
ONS GB boundary (2024); Greater London outline from 33 local authorities (2025). London colour marks CSO location; regressions exclude London properties, not CSOs directly.
